

## EPHA Hose

### Protectors are

*durable wear shields made of an abrasion resistant material. Easily attached to almost any size or type of hose, the Hose Protector prevents up to 90% of all failure due to wear at points of contact.*

*With an extremely high wear factor and a wide range of operating temperatures (-40° to 430° F) the Hose Protector provides protection in a variety of applications.*

## Unique Features

- Extremely high wear factor
- Wide operating temperature range (-40° to 430° F) provides protection in a variety of applications
- Impervious to solvents, oils, grease, gasoline, etc.
- Protective grooves prevent slipping and wear of cable ties
- Easy installation in minutes
- Exceptionally cost effective
- Available in 5 sizes – 4", 6", 8", 10" and 12" – cable ties included
- Every order shipped in counter display boxes
- Excellent profits from retail counter sales
- Custom colors, logos and packaging available
- Special discounts for quantity orders

## Protects Against

- Hose and wiring abrasion caused by points of contact
- Expensive hose and wiring repair bills
- Fires caused by failed oil & electrical systems
- Lost profits from costly down time
- DE9 oil spills & clean-up

#### DISCLAIMER:

This product is not in any way intended to be used as a patch or repair for hoses, cables, lines, etc. that are already worn beyond safe use standards. It also will not prevent oil from leaking or spilling from hoses or failed systems. The EPHA Hose Protector is solely intended to be used as a wear shield in an attempt to prevent damage to hoses, cable, lines, etc. at points of contact.

## Hose Wear

## Easy Installation in Minutes

Wrap Hose Protector around hose

Attach cable ties around protector

Protect hose
